

# A Challenge to Life and Soul

Guest Speaker:  
Mike Kelly

- How does suffering impact our faith?
- Does suffering make God relevant?
- Can suffering be used to enhance our lives?
- How does our society deal with suffering compared to others?

Mike Kelly is a successful family man and a retired police sergeant who survived a life-threatening experience with cancer. The challenges he faced raising a family, working over 30 years in law enforcement and battling cancer gave him a unique outlook that threw him into the hands of God and deepened his faith.
